Employers' Association Here is Said to Have Furnished the Informa-

District-Attorney Jerome has sent word to the police in Kansas City of an alleged plot of members of Sam Parks's union to create a disturbance or the floor of the convention of the In-ternational Association of Structural Iron-Workers of America. Ten members of the union are now on their way to the Western city, and if information furnished the District-Attorney be correct they contemplate acts of violence f necessary to gain their seats in the

of Parks's enemies, the Employers' Association. It was Charles Cohn, the association's attorney, who communicated the alleged plans to Mr. Jerome, and he does not furnish the source of

Friends of Parks with whom he consulted freely. as we are informed, have planned to get to Kansas City before the convention opens and go at once to the convention hall. The union which Parks represents has no standing in the convention, because President Frank Buchanan suspended the union here. It has been agreed, so I am told, that the friends of Parks shall take possesion of the floor. Of course they expect to be ordered off. The new union of Housesmiths, which is opposed to Sam Parks's union, met yesterday and selected H. B. Hammond, the President; P. C. Maguire, Secretary, and George B. Thomas, of the Executive Committee, as delegates to the Kanses City convention.

They will ask to be admitted in place of the Parks delegates and will apply for a charter to take the place of the suspended union.

Parks announced last night that he would not be a candidate for National President and that his followers would support Hugh Donnelly, of Albany, for the place.

Parks said he was too sick to attend the convention, but he may change his mind and go before Monday.

TALKS OF CONSPIRACY.

SCHENECTADY, N. Y., Sept. 18.—At the session of the State Federation of Labor yesterday, President Murphy left the chair and in a lenghty speech left the chair and in a lengity speech charged certain members with conspiracy to gain control of the convention for individual and political purposes. He said that the deliberations resembled a Devery caucus more than a labor convention. His remarks brought forth a storm of protest.
